PERMACULTURE

DESIGN

CERTIFICATE

EARTH MOUNTAIN FARM, COLORADO

Learn elements, ethics, and principles that guide permaculture design through great teachers and hands-on application at a 15-year education farm in the Sangre De Cristo mountains. **Stay the entire course for certification or take any day class without certification.**

Conduct sight analysis, identify opportunities in any system to catch and store energy and resources, and turn it into products that meet the needs of the Earth and its' people.
